- Barbed acetal connector Ø16 × Ø16 (4pcs)
- End rings (5pcs)

- Barbed plug Ø4 (10pcs)

Extra information for PC dripper:

FEATURES AND BENEFITS

Self-flushing mechanism flushes at every start-up ensuring reliable operation and less maintenance.
Excellent Cv performance and wide pressure compensation range (7-58 psi) delivers consistent emission uniformity.
No-drain model eliminates run-off and puddling in uneven terrain and overhead drip applications.
Highest quality plastic with silicone diaphragm provides reliable performance in the toughest UV and chemical conditions.

Ideal applications include vineyards, greenhouses, nurseries, and landscape over a wide range of inlet pressures and undulating terrain.

Extra information about dripper on stake:

Volvi dripper

Also ideal for tree cultivation and vineyards. High resistance to weather conditions and lightweight plastic for a longer life span.

Kerkini dripper

Also ideal for tree cultivation and vineyards. High resistance to weather conditions and lightweight plastic for a longer life span. Designed to minimise clogging.
