PRODUCT INFORMATION

The Rain Bird nozzles, type Falcon 6504 & 8005 series is the best nozzles to be used with the FALCON 6504 and 8005 pop up series.
The nozzles with Rain Courtain technology produce large water droplets which are more resistant to wind and reduce misting which improves the irrigation performance.
The Rain Courtain nozzles have an effective and gentle close-in irrigation which allows the pop up to prevent dry spots in the area close to the rotor and avoid seed washout.
These Rain Courtain nozzles should be used with the FALCON 6504 series and 8005 series.
