by Rivulis

TECHNICAL SPECIFICATIONS

Colour brown

Type TurfDrip CNL

Material PE

Filtration 130 micron

Length 100 m

Opening pressure 0,5 bar

Pressure 4 bar

Rec. press. 0,5 - 4 bar

Wall thickness 47 mil

Wall thickness 1,2 mm

Flow 2,2 ltr/h

Size 16 mm

Inner ø 13,6 mm

Max. Length 102 m

Dripper spacing 33 cm

PRODUCT INFORMATION

The NaanDan TurfDrip with Amnon CNL dripper is ideal for commercial drip irrigation with big differences in elevation.

CNL stands for Compensated Non Leakage which means that all the drippers will open and close at the same time, therefore every dripper will give the same amount of water.

The TurfDrip special material gives it additional flexibility in order to avoid kinks in the coils before and during installation.

Brown coils come packed in plastic foil which allows you to save any remaining drip hose in its original packaging.

Opening Pressure: 1.0 bar.

Closing Pressure: 0.2 bar.

Pressure Regulating Range: 1.0 - 4.0 bar.

Recommended Filtration: 130 micron.
