TECHNICAL SPECIFICATIONS

Colour	white
Type	ILX-IVM
Material	plastic
Voltage	24VAC
Height	364 mm
Type	PEU
WebshopURL	https://www.bosta.com/en-gb/rain-bird-controller-plastic-24vac-white-type-ilx-ivm-peu-240-stations-7028618
Number of Stations	240

PRODUCT INFORMATION

Rain Bird's new ESP-LX-IVM 2-Wire System comes with the new Integrated Valve Module (IVM).
Flow sensor inputs: up to 5 in the LX-IVM and up to 10 in the LX-IVM Pro.
This “smart solenoid” stays in constant communication with the controller, providing efficient irrigation and advanced diagnostics.
Up to four 2-Wire paths can be connected, plus flow sensing and flow management tools.
Only half the number of wire splices are needed, improving installation costs and reliability.
A 2-Wire path must be surge protected and grounded every 150m or every 15 devices, whichever is smaller. The IVM-SD Line Surge Protector is used for this purpose.
Wire connectors included; Languages available: EN, ES, FR, DE, IT, PT.
