|----------|---------|
| Colour | black |
| Pressure | 1,5 bar |

PRODUCT INFORMATION

Features:

- Fixed output of 120 ml/h at 1.5 bar, ensuring predictable and stable chemical dosing for balanced water treatment
- Constant 1 rpm operation that simplifies system setup and reduces the risk of over- or under-dosing
- Peristaltic pump principle that keeps chemicals isolated within the tube, improving safety and extending service life
- Suitable for dosing common water treatment chemicals used in pool and light industrial applications
- Compact black housing that integrates easily into existing installations with limited space
- Designed for continuous operation, supporting reliable water quality control with minimal intervention
