## PRODUCT INFORMATION

The PS Ultra Now this is the exact component to make life easier at all nurseries. The PS Ultra Numerous sizes of nozzle will fit on this sprinkler, making it is multi-functional. Available in three different sizes, this sprinkler's compact design has a two-piece ratchet, a sustainably produced cap, a riser with a sturdy thread and a large filter screen. The standard PS Ultra model features a pre-installed, adjustable sprinkler cap, so you have the advantage of a quicker installation. The PS Ultra is available with risers measuring 2, 4 or 6 inches. The largest two models have a double filtration system. The 2- and 4-inch models fit on the existing PS Spray bodies, so upgrades are quick and easy to carry out. The advantages of the PS Ultra - Improved cap for more sustainability, easier use and a longer service life. - A large inlet filter screen to protect the sprinkler against dirt. The integrated antileak check valve prevents the water from running out of

the pipes and ensuring even pressure throughout. - The PS Ultra has a sturdy spring that draws water up in a consistent fashion, guaranteeing sufficient water. Additional features of the PS Ultra - Two-piece riser with ratchet - Compatible with all nozzles with a female thread. - Directional flush plug design for a cleaner installation. If you want a PS Ultra with a flush plug, please remember that it does not come with a nozzle or filter screen. However, those items can be ordered separately without any trouble.
