TECHNICAL SPECIFICATIONS

Type	Soleo Connect Rx
WebshopURL	https://www.bosta.com/en-gb/pentair-control-system-type-soleo-connect-rx-7035816

PRODUCT INFORMATION

Soleo Connect automatically manages your filtration and your water treatment system. It automatically regulates the parameters of your water, controlling your variable speed pump, your lighting or your pool heating. It can adjust the filtration time depending on the water temperature and therefore improve the water quality by optimising the treatment. Thanks to its WiFi connection, you can now access, control or modify these parameters from anywhere. The Pentair Gateway (sold as an option) offers a direct connection via WiFi or Lora (Long Range radio) when the WiFi is not close to the pool room. Soleo Connect Rx is a smart water treatment solution which dispenses liquid chlorine and can manage the filtration cycles of the variable speed pump as well.

Features:

• Controls the variable speed pump, adapts the filtration time according to the water temperature and automatically adjusts the water treatment
• Controls filtration, water treatment, heating and lights automatically
• Remote control with the Pentair Home App
• Connection either directly via Wi-Fi, or with the Pentair Gateway (Part no. 7035819)
