PRODUCT INFORMATION

The Rain Bird 11000 Series Rotor is specifically designed for use on sports fields and large commercial turf applications. Providing excellent water distribution uniformity over a full 32.0 m radius, makes this rotor ideal for sports fields and reduces the number of heads required. With a small exposed head and included rubber cover, this rotor is designed for in-field use and

therefore can irrigate fields 25% larger than 1″ rotors with 40% fewer rotors.
