

NaanDan Leakage prevention device plastic 1/2" x 9/12 mm female thread x barbed black type Irristand 52 (7027312)

NaanDan
by Rivulis

TECHNICAL SPECIFICATIONS

Colour	black
Material	plastic
Connection	female thread x barbed
Type	Irristand 52
Size	1/2" x 9/12 mm

PRODUCT INFORMATION

The Leakage Prevention Device (LPD) prevents draining after the system shut-off and improves irrigation uniformity.

Discharge up to 750 lph: Opening Pressure: 1.1 bar; Closing Pressure: 0.6 bar; Head loss: 0.08 bar.
Discharge between 750 - 1500 lph: Opening Pressure: 1.4 bar; Closing Pressure: 0.8 bar; Head loss: 0.26 bar.

Application: Ideal for crops that are been irrigated by sprinklers and require all sprinklers to open and close at the same time in order to improve crop uniformity.
