TECHNICAL SPECIFICATIONS

Connection	glue socket
Type	NJV-mono
Output Power	3 HP
Size	90 mm
WebshopURL	https://www.bosta.com/en-gb/counter-current-system-90-mm-glue-socket-230vac-type-njv-mono-0920787
Voltage	230VAC
Power	2.2 kW
Max flow rate	70 m^3/h

PRODUCT INFORMATION

The perfect blend of flow rate, pressure and air at the nozzle exit. Exceptional swimming effect and performance. Patented air and water flow rate management system on the central nozzle. The New Jet Vag can be fitted in any type of swimming pool. When construction starts do not forget to make allowance for it in the structure.

- With resin motor
- Including remote control
- High flow nozzle with Ø42mm instead of Ø35mm, allowing greater flow.
