Colour	orange
Capacity 2 bar	70 l/h
WebshopURL	https://www.bosta.com/en-gb/naandan-antimist-insert-plastic-bayonet-f-x-bayonet-m-orange-7020863

PRODUCT INFORMATION

The Antimist insert enlarges the water droplets that come out of the micro sprinkler.
The enlargement of the water droplets changes the water pattern and increases the distance that you can achieve with a single micro sprinkler.
It is ideal for narrow greenhouses or tunnels where a single row of irrigation application is installed in the middle.
