

**PSH Commercial pool pump
cast iron DN125 x DN100
flange 16,6A 400/690VAC
black type FDN3000-22
(7029861)**

 P S H

TECHNICAL SPECIFICATIONS

Colour	black
Shaft	stainless steel 316L
Pump body	cast iron
Material impeller 1	bronze/aluminium
Material cover	cast iron
Material seal	carbon/ceramic
Connection	flange
Frequency	50 Hz
IP value	IP55
Motor RPM	2900
Type	FDN3000-22
Capacity	194 m ³ /h
Output Power	12,5 HP
Max. head	22 m
Size	DN125 x DN100
Length	1071 mm
Voltage	400/690VAC

Width 312 mm

Weight 113 kg

Power 9.2 kW

Height 360 mm

Ampere 16,6 A

PRODUCT INFORMATION

FDN-3000 is a pool pump designed to offer the highest performance in filtration and purification of water for commercial pools. All parts in contact with water are treated using a long lasting cataphoresis process. This treatment prevents the formation of troublesome oxides on cast iron pumps significantly prolonging the life of cast iron and is one of the best anti corrosion and

antioxidant treatments existing in todays market.

Features:

- High efficiency motor class IE3 according to regulation EC n°640/2009
- Special long life treatment to prevent corrosion
- Standard motor which makes it compatible with any manufacturer's engine worldwide
- Robust and durable
- High quality mechanical seal and bearings
- Independent pre filter allowing use of the pump without prefilter or assembly to other types of pre filters
- Pre filter with large volume and stainless steel basket with easy access for cleaning
