

Rain Bird Rain sensor 24VAC type RSD-BEX (7019462)

RAIN BIRD

TECHNICAL SPECIFICATIONS

Type	RSD-BEX
------	---------

Voltage	24VAC
---------	-------

PRODUCT INFORMATION

The Rain Bird Rain sensor, type RSD-BEX is used in both residential and commercial applications with a range of controllers like 24VAC, WPX and TBOS.

The RSD-BEX rain sensor saves water and extends the life of the irrigation system by preventing unnecessary irrigation on rainy days.

The RSD-BEX rain sensor includes an UV resistant extension wire for connecting it to the controller.
