Max. Length	125 m

PRODUCT INFORMATION

The NaanDan TurfDrip with Amnon PC AS dripper is ideal for commercial drip irrigation on ground cover, dense plantings, hedge rows and trees.
AS stands for Anti-Syphon which allows you to install this dripline above and under the ground.
The flat in-line Amnon AS dripper comes with an anti root design which prevents roots from entering the dripper labyrinth and clogging it.
The TurfDrip special material gives it additional flexibility in order to avoid kinds in the coils before and during installation.
Brown coils come packed in plastic foil which allows you to save any remaining drip hose in its original packaging.
Pressure Regulating Range: 0.5 - 4.0 bar.
Recommended Filtration: 130 micron.
