PRODUCT INFORMATION

The Hunter PGP sprinkler It's not surprising that the Hunter PGP is the best-selling sprinkler. This item launched Hunter's success in 1981, and has been incredibly popular ever since, thanks to the rotating sprinkler caps that distribute the water evenly. All Hunter's expertise on gearing technology was unleashed on this pop-up sprinkler. No wonder it's the number one choice of every irrigation professional. And yours too! The PGP is a pop-up sprinkler, making it perfect for sprinkling lawns and playing fields. It features a 10-centimetre pop-up height, an adjustable sprinkler arc and rotating jets, so it can be used for large ranges. And you don't need to worry as you can be certain your field is well irrigated. The Hunter PGP comes standard with: - three types of sprinkler caps, suitable for zones of different sizes; - an adjustable arc so you can guide the water in angles between 40 and 360 ° degrees; - rubber cap to protect the sprinkler; - a straightforward arc mechanism that make it easy to adjust the settings on the sprinkler. Benefit from Hunter's expertise with the PGP.
