Material	plastic
Connection	push-in x barbed
Opening pressure	1 bar
Rec. press.	1 - 3,5 bar
Colour	red
Type	XBCV20PC with check valve
Flow	4 ltr/h
Size	4/7 mm

PRODUCT INFORMATION

XBCV prevents drainage by holding back 3m of water, the highest in the industry. It is a smart solution highly recommended for slopes, elevated zones, potted plants, and more. You can choose from the widest selection of pressure-compensating emitters, with 3 flow rates and 2 inlet options. The self-flushing action minimises clogging, its robust design is made from highly inert materials and is resistant to chemicals. The durable plastic construction is also resistant to UV.
