Weight	12.7 kg
Power	1.1 kW

PRODUCT INFORMATION

Equipped with an integrated control, this pump can be individually programmed to your needs. With the timer function it is possible to set up to five different speeds at specific times of the day. In addition, the pump has a skimmer function, which allows an interval to be programmed so that the pump runs at high speed for a short time (for example, every three hours for five minutes at 3000 rpm) to extract all debris from the water surface. Operation with an external swimming pool control via the integrated control cable is also possible. Thanks to the variable speed motor, the pump can be operated very quietly. The pump can be installed on existing connections to pumps of the following models: Badu Better, Badu Top II, Badu 90, Badu Magna, Badu Prime etc.

Features:

- Timer with 5 speed daily settings possible
- Skimmer function for cleaning water surface
- Control cable for external controls
- Up to 24 m^3 (at 8m H [m])
- Connections: 1.5”/ 2” female thread
- Saltwater resistant: Up to 0.4% (4 g / l)
- Insulation: Class F
- Protection: IP55
- Shaft: 316 stainless steel
- German “high spec” motor
- Single-phase motor with thermal protection
- Including strainer lid opening tool
- Permanent magnet motor
- 4 years warranty

Recommended pump fitting:
50 mm x 1.5” Art-Nr: 0100432

63 mm x 2" Art-Nr: 0100433
