TECHNICAL SPECIFICATIONS

Colour	brown
Type	TurfDrip CNL
Material	PE
Filtration	130 micron
Length	100 m
Opening pressure	0,5 bar
Pressure	4 bar
Rec. press.	0,5 - 4 bar
Wall thickness	47 mil
Wall thickness	1,2 mm
Flow	2,2 ltr/h
Size	16 mm
Inner ø	13,6 mm
Max. Length	102 m
Dripper spacing	33 cm

PRODUCT INFORMATION

The NaanDan TurfDrip with Amnon CNL dripper is ideal for commercial drip irrigation with big differences in elevation.

CNL stands for Compensated Non Leakage which means that all the drippers will open and close at the same time, therefore every dripper will give the same amount of water.

The TurfDrip special material gives it additional flexibility in order to avoid kinks in the coils before and during installation.

Brown coils come packed in plastic foil which allows you to save any remaining drip hose in its original packaging.

Opening Pressure: 1.0 bar.

Closing Pressure: 0.2 bar.

Pressure Regulating Range: 1.0 - 4.0 bar.

Recommended Filtration: 130 micron.
