PRODUCT INFORMATION

Thanks to its high purity and hardness, Soft-Sel® Pluss is very suitable for membrane electrolysis devices. Additionally, the content of sulphates is low and there are no insolubles.

Application:

- Regenerating salt for ion exchange resins in domestic and industrial water softeners.
- Salt tablets for membrane electrolysis device – swimming pool chlorine production.

Characteristics:

- Round tablets – dimensions: 25 mm – H 12 mm
- Very high purity, minimum of powder
- Low content of sulphates and absence of insolubles
