PRODUCT INFORMATION

The AquaRite®+ salt chlorinator combines the highly effective and reliable low salinity sugar valley cell, with a complete pool automation system. Enjoy perfectly balanced & crystal clear water thanks to continuous pH and ORP control and manage all your pool equipment (e.g. filtration, heating, lighting etc.) automatically or even remotely, with the optional WIFI module. This unique system provides excellent water quality & saves on chemicals.

Features:

- Low salinity cell
- Detachable screen
- Optional ORP probe
- Optional pH probe with peristaltic pump 1,5l/h
