TECHNICAL SPECIFICATIONS

Type	NorsupGo
WebshopURL	https://www.bosta.com/en-gb/norsup-water-treatment-kit-ph-chlorine-dosing-type-norsupgo-7044063

PRODUCT INFORMATION

The NorsupGo automatic pH and chlorine dosing system offers the ultimate in water quality control and swimming comfort. This smart dosing program ensures the pool water contains the exact amount of chlorine required at all times, resulting in perfectly balanced pool water. There is no risk of overdosing, no irritating chlorine smell, no red eyes, and no unnecessary chemical use.

Features:

- Suitable for pools up to 200m3 and whirlpools
- Automatic pH correction (adjustable to pH+ or pH-)
- 100% anti-overdose thanks to advanced safety features
- Digital electrode quality control
- Shock function with automatic calculation
- Adjustable dosing alarms for pH and RX
- Compatible with external flow sensor and level signal
- Optional temperature measurement
- Complete kit including probes, flow switch and other installation accessories
