

# Solenoid valve brass 1/2" female thread 16bar 230VAC type WKB (0404069)

# TECHNICAL SPECIFICATIONS

|                             |                         |
|-----------------------------|-------------------------|
| Type                        | WKB                     |
| Material                    | brass                   |
| Operation                   | indirect servo-operated |
| Indirect effect             | yes                     |
| Material housing            | brass                   |
| Material seal               | NBR                     |
| Connection                  | female thread           |
| Right-angled model          | no                      |
| Deactivated when open       | No                      |
| Voltage                     | 230VAC                  |
| Temperature range           | -10°C - 140°C           |
| Minimum pressure difference | 0.2 bar                 |
| Maximum ambient temperature | 35 °C                   |
| Direct current (DC)         | no                      |
| Capacity                    | 70 l/min                |
| Size                        | 1/2"                    |
| Pressure                    | 16 bar                  |
