

# Solenoid valve brass 3/4" female thread 16bar 230VAC type WZB (0404077)

# TECHNICAL SPECIFICATIONS

|                                   |                         |
|-----------------------------------|-------------------------|
| Type                              | WZB                     |
| Material                          | brass                   |
| Operation                         | indirect servo-operated |
| Material housing                  | brass                   |
| Material seal                     | NBR                     |
| Connection                        | female thread           |
| Right-angled model                | no                      |
| Deactivated when open             | No                      |
| Voltage                           | 230VAC                  |
| Temperature range                 | -10°C - 140°C           |
| Minimum pressure difference       | 0.2 bar                 |
| Maximum ambient temperature 35 °C |                         |
| Capacity                          | 140 l/min               |
| Size                              | 3/4"                    |
| Pressure                          | 16 bar                  |
