

ResQ-plast Professional blue

2.6m 25 mm (7017917)

TECHNICAL SPECIFICATIONS

Colour	blue
Length	2.6 m
Width	25 mm

PRODUCT INFORMATION

ResQ-Plast is a new product which serves as a plaster-tape. It is easily wrapped around small injuries and because of the fact that it only attaches to its own surface (not skin or hair), it does not leave any marks on the skin. It is very flexible and has a loose structure, which allows it to breathe and makes it very comfortable to wear.
