| Colour | grey |
| Type | RB1234-010 |
| Material | PVC |
| Connection | male thread x female thread |
| Pressure | 10 bar |
| Size | 1" |

PRODUCT INFORMATION

The Rain Bird RB1234-010 union coupler is used to make any system with manifolds in irrigation or other applications.

Connection is done easily by directly fitting the female version into the male version, nothing else is needed. Designed to minimize leakage.
