PRODUCT INFORMATION

Includes a self-priming multi-stage pump, management inverter electronics, pressure and flow sensors, adjustable high resolution LCD display with 2 litre built-in expansion vessel, and cartridge check valve.

Suitable for use with potable water in commercial applications.

Pressure set point adjustable from 1 to 12 bar

Max. inlet pressure: 5 bar

Installation: fixed vertical position, a 4 pump modular system is available with the additional kit to connect the ESYDOCKS.

Docking station not included and is required for operation.
