bringing water to life

TECHNICAL SPECIFICATIONS

Type	Premium Small 3250
Material	stainless steel

PRODUCT INFORMATION

Stainless steel insert for main drain applications in pool and water treatment systems. Designed as a reliable replacement component within premium drain assemblies.

Features:

- Premium-grade stainless steel for optimal corrosion resistance
- Suitable for Hayward bottom drains, especially models 3252 and 3253
- Outer diameter of 190 mm with a centre-to-centre spacing of 170 mm
- Simple to install, making it an effective replacement for worn or damaged grilles
