PRODUCT INFORMATION

Crystal clear water with the most popular flocculant in Europe

- Unique formula that removes tiny dirt particles and traces of algae from the pool
- Operates up to 3 weeks
- Reduces chlorine consumption
- Does not cloud the water and leaves no residual particles afterwards
- Easy to use
- Makes a clear membrane on the filter media to a depth of about 16cm
- Captures fine particles and keeps them separate from the filter media by means of a mild, gel-like substance that is washed away in the backwash cycle
- Colour: transparent blue
- Packaging: 4 pieces / carton
- To be placed in the basket of the pump at a pH value between 7.2 and 7.6
- Store in a cool place in it's protective packaging
