Radius	20,1 - 29,6 m

PRODUCT INFORMATION

Go the distance with the I-90 Featuring a sprinkler range of up to 30 metres, no challenge is too much for the Hunter I-90 pop-up sprinkler. Set up this rotor in a park, a playing field, on real turf or a public space and you will be guaranteed consistency thanks to a sprinkler system that's long-lasting and low maintenance. Go the distance with the I-90. Easy maintenance. It takes a lot of time to dig up a sprinkler to replace a part, or to clean out dirt and above all, if you have installed the I-90 in a public space, you would rather not need to dig there. However, the body cap means you don't have to worry about that. The body cap gives you quick access to the filter screen and antileak check valve. No more need to dig. The I-90 comes with: - 8 colour-coded nozzles; - a plastic riser; - a dirt-repellent rubber cap. Specifications of the I-90 - Exclusive Pressure Port ™ technology guarantees exceptional consistency with respect to the nozzles. - It is easy to decide on the spray shape and range with the assortment of nozzles that are supplied with the I-90. - It is easy to adjust the radius of the jet thanks to the QuickCheck ™ arc mechanism. - It offers the advantage of flexible installation options, as the model can make both partial circles and full circles. - Save water thanks to the antileak check valve that ensures that water remains in the sprinkler if the pressure drops. The Hunter I-90 is the solution to your challenging water project. Try it at first hand.
