Riser height	10 cm

PRODUCT INFORMATION

PGP Ultra: the power of simplicity Three decades of research, customer feedback and lab tests have been concentrated in the PGP Ultra to produce one of the most fine-tuned sprinklers. Unlike other sprinklers, this sprinkler has an automatic arc return feature and a motor that cannot be detached, making it easier to adjust the settings on your sprinkler system and reducing the risk of damage to a minimum. Set high standards with the PGP Ultra. Another unique feature of the PGP Ultra is the 34 nozzle options with a range of radius options that come with it. It includes a slot with cap screw and slotted screw. The versatility of the PGP Ultra offers system installers a huge range of efficient options for any location. Specifications of the PGP Ultra - An adjustable arc ranging from 50 to 360 degrees. - An automatic arc-return feature. The arc will return to its pre-set pattern, even in high winds or after being touched. - The non-detachable motor mechanism is protected against damage if it is disconnected by being turned in the opposite direction. - Partial and full circle in a single model for watering different-sized zones within the same landscape. - Adjustable screw with head and slot means you can adjust the radius with a Hunter wrench or flat-blade screw driver. - Easy to instal because the sprinkler has a flat head. - QuickCheck ™ arc mechanism for quick arc adjustment. We have listed the advantages, but you really have to try them at first hand.
